MEMORANDUM

SUBJECT: Request for Preliminary Natural Resource Surveys (PNRSSs)

FROM: David Bennett *David Bennett*
Superfund Natural Resource Trustee Coordinator

TO: Michael Slater
Regional Project Officer

The purpose of this memorandum is to request the U.S. Department of Interior (DOI) conduct PNRSS at the following sites where Trustee resources are potentially involved:

1. Monsanto Chemical Company - Soda Springs, Idaho;
2. Kerr-McGee - Soda Springs, Idaho.

Background information and maps are attached. The PNRSS are a high priority as EPA expects to begin RI/FSS at these sites soon. Also, if you would send a carbon copy of your letter to DOI Headquarters to Chuck Polityka, I would appreciate it. Thank you.
